**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

Continuation of Item No. 3. NOTE: The proposed amendments will not be entered because they raise new issues that would require further consideration and/or search, specifically the newly added limitation requiring the film to have "an edge tearing resistance of at least 40 MPa in both a longitudinal direction and a traversal direction"; and they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal. It is noted that this new "at least 40MPa" limitation was not presented in any of the claims previously.

Continuation of Item No. 11. NOTE: The Applicant's arguments filed 7/21/08 have been considered but are not persuasive considering they are directed to the proposed amendments that have not been entered for the above recited reasons.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R. Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 10:00AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
